Front & Back

The **Archangel** is a brutally direct tactical answer to white's dreaded Ruy Lopez. Play organizes itself around a classic 'Murder on the Long Diagonal' theme, and the reader shares in the personal preparation of international grandmaster Ron Henley.

Power Play! is a complete training system designed to help you understand an opening. Instead of leaving the reader floundering through endless lines of analysis trying to figure out what's important and remember it later, **Power Play!** identifies the critical positions and helps you understand them the old-fashioned way, 'one position at a time.'

Study the 70 key games in this book and learn the 48 carefully selected **Power Play!** positions and you'll find yourself an instant expert in this effective, little-known answer to the Ruy Lopez.

IGM Ron Henley is one of America's strongest players and a born teacher. In 1990 he served as Anatoly Karpov's second in his bid to regain the title from Garry Kasparov. Paul Hodges, a correspondence master both in Britain and the United States, has made a career out of isolating key positions for definitive testing in postal competition.
